HUMAN SEXUALITY CURRICULUM NOTIFICATION Poudre School District

The Poudre School District Board of Education has approved the Human Sexuality Curriculum for all 7th grade students. The curriculum includes instruction on the human reproductive system, sexually transmitted diseases and infections (including HIV/AIDS), and contraception. While Colorado law does not mandate the teaching of these topics, the Colorado Comprehensive Health Education Act encourages school districts to provide this information for secondary students.

Colorado Statute 22-25-104 (2000) requires that “any curriculum and materials developed and used in teaching sexuality and human reproduction shall include values and responsibility and shall give primary emphasis to **abstinence** by school-aged children.”

The lessons for this unit include:

- ☐ Healthy Relationships
- ☐ Media Influences
- ☐ Sexual Harassment and Assault
- ☐ The Human Reproductive System
- ☐ Sexual Activity and Associated Risks
- ☐ Contraception and Pregnancy Prevention
- ☐ Boundaries and Refusal Skills

The district-approved materials are available for your review in the front office at Preston, and you may view them at your convenience during school hours. By law, you may excuse your child from participation in classes that include content that is contrary to your religious or personal beliefs. Your child may be exempted from one or more lessons.

Additionally, a lesson on diversity in relationships (LGBTQ+) as presented in the Glencoe Teen Health text on pages 41-43 will be taught during the social health unit in the context of prejudice and discrimination. This lesson is not considered part of the human sexuality unit.

Please see the back of this form to grant permission or excuse your child from one or more lessons in the unit. Please feel free to email me (jsimpson@psdschools.org) with any questions regarding any part of the curriculum, or for clarification about the unit.

Sincerely,

Diana Bonilla
Health Teacher
Preston Middle School
